

# Adaah IAPP Certification Courses FAQs

1. Is Adaah Solutions collaborated with IAPP while providing IAPP Certification courses?

Yes. We are the official training partners (OTP) of International Association of Privacy Professionals (IAPP), and we deliver certification training programmes for CIPP/E, CIPP/US, CIPM and CIPT. (IAPP listing can be seen at <https://iapp.org/train/iapp-official-training-partners/#asia-pacific>)

We strongly believe that a sincere pedagogy is inevitable in the learning journey for a professional certification. Our trainers can be blindly trusted to be imparting you the requisite data privacy acumen using all possible interactive ways.

2. What all is included in the IAPP course package?

The IAPP kit includes:

- Exam Cost (Exam voucher valid for 365 days)
- IAPP 01 Year Membership
- Official Course Textbook (Digital)
- Course Participant Guide (Digital), and
- Sample Questions (Digital) in your IAPP account.

3. Which exam shall I go for CIPM or CIPP or CIPT?

Each exam's curriculum is based on specific role that you intend to take up in your organization.

**CIPP** is typically pursued by professionals who are going to execute the consulting projects, mostly they are from legal, or cybersecurity, or management consulting background. They need to be well versed with latest technological and legal evolutions in the privacy industry and should be capable of implementing privacy controls which can be legal, procedural, or technical in nature. It is the most-revered certification of privacy at the global levels.

**CIPM** is pursued by professionals who will take up roles of privacy programme manager, they have seniority level in their respective organizations. They do not need to be subject matter experts in various privacy laws but have to be good at comprehending the privacy program needs of their organisation with a 360-degree view and will be making strategic decisions in collaboration with the governance.

**CIPT** is pursued by professionals who are from a hardcore technical background of IT, communications, networking, or cybersecurity. They are inclined towards implementing privacy tools, technical controls, privacy enhancing technologies, privacy-by-design implementation, privacy engineering roles.

More information on IAPP certifications can be found at <https://iapp.org/certify/programs/>. You may also refer to the career counselling PDF shared with you in the introductory email from Adaah.

4. How can I enroll for the course?

You can drop an email to [info@adaahsolutions.com](mailto:info@adaahsolutions.com) with your contact details and our sales executives will reach out to you with the details. You may also raise a request on [www.adaahsolutions.com/academy](http://www.adaahsolutions.com/academy).

5. I already have a running IAPP membership, will that be overlapped with the 01-year membership included in your package?

No. Your existing IAPP membership will be extended by 01-year so that you do not incur any losses on the membership duration.

6. Can I customize the package as per my needs, e.g. I already purchased the books or sample questions, or membership?

No. The package is not customizable. All the contents mentioned in FAQ#1, shall be mapped to your online IAPP account. There will be no price reduction since there is no option of customization.

7. Do I get bonus on providing referral?

Yes. For each referral bonus, you will get a fixed INR 1500/- as cashback, only after the complete payment is made by you and your referred delegate.

8. What is the mode of training and who will be the trainer?

Training will be conducted in virtual meeting format. Microsoft Teams platform is leveraged for the same. The training is provided by credentialed and experienced trainers from Adaah. It will be a 12-hour long course. All our trainers have 10 plus years of experience relevant to data privacy and hold respectable positions in their respective organizations.

9. Will a 12-hour training be sufficient for me to prepare for IAPP certification?

No. IAPP certifications hold the top-notch position and respect in the global privacy industry. Likewise, you need to prepare rigorously for the same. In the 12-hour training programme, our trainers give you glimpse of each facet of the course with some caveats and intricacies, use cases, real time examples, and what kind of questions may come in relation to the topics. There is NO magic wand. Once the training is completed, you need to invest hours of study daily and go through the official textbook thoroughly, plus couple of bare acts like GDPR, along with all the extra sources that the trainer will provide to you.

Our WhatsApp groups will be open to you for participation, topic discussion, sharing thoughts, etc. Our trainers will remain available (subject to the appointment) to discuss any topic or any hindrance that you are facing.

10. How do I practice for the exam as part of my preparation?

Adaah will provide you with mock tests prepared by our trainers, which are built on the same pattern as past exam questions and are quality reviewed. These practice tests are over and above the sample questions provided to you by IAPP.

11. What all post-training support is provided by Adaah?

We provide extended 12-month post-training support to our esteemed alumni which includes:

- **Opportunity to sit for any upcoming batch of your respective courses for revision purpose, completely free of cost.**
- 02 practice tests for you to ascertain your readiness for the exam.
- Short notes for revision purposes.
- Access to our WhatsApp group 'Adaah Privacy Channel' which will run for 365 days with all the latest news in the global data privacy industry and job opportunities.
- Access to our WhatsApp group 'Adaah Alumni' which gives opportunity to connect with your peers who have cleared the exams or are preparing for the same.
- Interview tips for your new data privacy roles in your current or prospective organisation, along with any industry-related career counselling.
- Best possible hand holding shall be provided till you clear your exam.
